For BoST, all actors are important, but especially industry, educational spaces, local organizations and fablabs must become special allies, and should be invited to participate in certain meetings of BoST that allow the OSCE to be transformed and strengthened day by day with The free exchange of ideas that also allows to test and be put into practice in other escenaries.

For event organization and regional connectors it is important to identify fablabs and organizations that can collaborate with each other to promote OSCE and ensure that activities can be carried out between them.

For local organizers it is important to ensure that many sectors can meet and present their views on specific topics

Everyone is interested in reaching the public
