General Info and what is missing:

• The Design (template) will be the same.
• I think about changing the headline font to Open Sans?
• Where is the documentation of the past events for example the Open Labs Docu? Probably the History Page should be rebuild into "Past Events" – and be updated constantly with links to documentation.
• If the theme has a slider – we can place info about upcoming things in it.

OPEN SOURCE CIRCULAR ECONOMY days

Open Source Circular Economy Days

is a global open community about open source resources to create a shift to a sustainable circular economy.

We are collecting ACTION protocols and use play with them and implement them in open events across the globe. Join us!

take   *run*   *care &*

ACTIONS

An ACTION protocol is a simple step by step guide helping people to understand and use a circular economy solution. Pick one **from the list** or **contribute** one.

Scroll down for examples

⇓

EVENTS

You can **run a local event** in your city – invite a local community to play with OSCEdays resources and methodologies and to connect to other parts of the world.

Scroll down for upcoming events.

⇓

JOIN

OSCEdays is maintained by a board of stewards building and shaping the global project. You can join us or support our work as a **Patreon**. Think about joining?

CALL TO *ACTION!*

UPCOMING:

OSCEdays Writers Weekends – #1: March 4 & 5

DOCUMENT ------->   SHARE

OSCEdays WRITERS WEEKENDS

No 1 **MARCH 4 & 5, 2017**

COLLABORATE   <-------CONNECT

We invite knowledge people across the globe to document circular solutions and create ACTIONS – sharing knowledge and opportunities, get visible and connect globally. Join the first weekend ->

READ THE CALL!

3rd Global Event – June 8-12, 2017 – Sign Up!

Following its (young) tradition we will have a global JUNE date again – inviting people from across the globe to run local events all at the same time and connect them upfront, live during they happen and also afterwards. We learned a lot from first two iterations so the event will be bit different this year.

The Circular Design Guide – Open Workshops

There is a fantastic resource … use it to …

_ short description _

Set Up A Circle Dinner To Connect Local Stakeholders

_ short description _

by Alice Audrey Grindhammer (CRCLR Berlin)

There are more! See the **full list** in our forum.

Contribute An ACTION!

Maybe the part above could be 2 columns instead of 3. It is just one click to test.

_

Not sure if the next part is needed anymore… – let's discuss with BoST. (It is already there so a test is quickly done.)

Cities

Inactive & Inactive

OSCEdays started in 2015 with a global event. See below who is been involved in the past. Learn more about **our history.**

	City Country	City Country	City Country
	City Country	City Country	City Country
	City Country	City Country	City Country
	City Country	City Country	City Country
	City Country	City Country	City Country
	City Country	City Country	City Country

Stewards

This is the group of people guiding and building the global project. **The group is open. Join us.**

[FACE] [FACE] [FACE] [FACE]

I am also not sure if we really need our faces on the page anymore. It could be like it is but instead of our faces there are our forum names: @gien @silvia @stasia and so on – and a link to our profile on the forum where we can share the information about us needed. An Image and so on. – Opinions?

Maybe it could be like this (because I real name is good for trust and transparency) :

@sharmarval
Sharon Prendeville

@gien
James Gien Varney-Wong

@Johnny
Johnny Kerkhof

@Frans
Frans Prins
